	Discount - 0%	\$0.00
TOTAL		\$1196.00

Terms & Conditions

1.1 Quotations submitted according to project specifications will remain valid for a period of 30 days from quote date. If this 30 day period lapses without client approval, or without requests for alterations or extensions by the client, the quote will expire. Thereafter, ML IT Solutions may amend the quote according to our current rates.

1.2 ALL quotations are submitted on the condition that all content, text, images and relevant information will be supplied by the client to ML IT Solutions, unless otherwise agreed upon. Amendments can be made to the quotation within the 14 days of the original quote date, however each new quote submitted will have the effect of completely overriding it's preceding quote.

1.3 As all quotations are carefully considered in light of each projects specific technical requirements, ML IT Solutions reserves the right to amend any quote should the projects specifications change, or if it becomes clear that the projects specifications where not communicated in a reasonably clear and correct manner by the client to ML IT Solutions at the outset of the project.

1.4 In the event that a client is unable to provide a detailed project specifications document , ML IT Solutions reserves the right to quote and bill for the initial research and planning needed to outline the exact specifications and technical requirements necessary to complete the project as required by the client. Such research and planning shall be billed according to our standard hourly rate.

2.1 An initial deposit of 30% of the cost estimate is required from the client before any work on the requested project can begin.

2.2 The 30% deposit of the total quoted amount becomes due immediately once the quote is formally accepted and once proof of payment has been sent to ML IT Solutions. ML IT Solutions accepts cash deposits, electronic transfers. PayPal is accepted in special circumstances and if previously arranged upon. ML IT Solutions does not accept payment by cheque.

2.3 No project shall commence until the 30% deposit has been made and confirmed. Should a client cause a delay in the commencement of the project by failing to make deposit within a reasonable time period, ML IT Solutions accepts no responsibility should the deadline of the project not be met.
